

## RVC Series

### Residential Volume Control Damper

The RVC range of Volume Control Dampers are designed for residential ducted ventilation systems.

The rectangular single blade damper is made from galvanised steel and designed as a male fit to the 3 common sizes of plastic ductwork.

Adjustable by a unique cam locking handle, with blade position indication.

The RVC damper range is available in three standard sizes:-

- 220mm x 90 mm
- 204mm x 60mm
- 110mm x 54mm
